

Anglo-Chinese School (Junior)
A Methodist Institution (Founded 1886)

26 August 2016

Dear Parents/Guardian

The school is monitoring the haze situation closely. The 3-hr PSI today went above 150, which falls under the unhealthy category. For the well-being of our children, they were taken to their respective air-conditioned classrooms, the air-conditioned MPH and PAH, all equipped with air-purifiers.

Student Well-being

We have put in place a school continuity plan since last year to ensure the well-being of your son/ward during a haze situation. We are ready to respond, modify and take appropriate haze management measures based on the guidelines corresponding to MOH's health advisory (see [Annex A](#)).

To enable our teachers to continue to safeguard the well-being of your son/ward while in school, please keep us updated on your son/ward's health status. Children, who are feeling unwell, should receive medical attention promptly. They should also have their necessary medication, such as their inhaler and spacer, with them at all times, and be encouraged to drink lots of water. They may also use their own masks if they choose to do so.

We would also like to inform you that the Ministry of Education is monitoring the haze situation closely, and will make adjustments to school activities corresponding to MOH's health advisory, to ensure the well-being of all our students. As part of our haze management measures developed over the years, we would like to reassure parents that our schools are equipped with air purifiers and sufficient enclosed spaces to cater to our students.

School Closure

As stated in MOE's website on Haze Management Measures, the Ministry will consider closing all primary and secondary schools if NEA's air quality forecast for the next day is in the hazardous level. Any decision to close schools will not be taken lightly as MOE is mindful of the disruptions to families' care arrangements for their child. The Ministry's decision will take into consideration all available information, health advisories and forecasts from the relevant authorities that we have on hand regarding the next day's haze situation. As forecasts are based on prevailing weather

conditions, real time conditions may differ from forecasts due to factors such as unforeseen changes in wind conditions. To ensure smooth operations in schools, and to avoid confusion among parents and students with adjustments to real time conditions, we seek your understanding that MOE's decision made the previous day, as to whether schools close or remain open, will stand. Should school closures coincide with national examinations such as the PSLE, the affected examination papers will be rescheduled and the examination period extended.

Unless official notification is issued from MOE to close schools, schools will remain open (including school-based Student Care Centres), and all activities including examinations will continue. Parents will be given adequate notice.

For more information of MOE's Haze Management Measures, please refer to <http://www.moe.gov.sg/haze/>.

CCA Matters

In the event the PSI goes above 200 next week, our CCA teachers will email or text you by 12pm on the day of the CCA to inform you that CCA is cancelled (we will not be issuing any notifications if CCA is to continue) so that you can make arrangements for your son/ward to be picked up at 1.30pm after dismissal, or for him to take the school bus home.

If you do not wish for your son/ward to attend CCA during this period of haze, rest assured that his attendance will be marked as Absent with Valid Reason, and there is no need to submit a letter or doctor's medical certificate.

We thank you for your support in this period and hope to continue to work with you to ensure that your child is safe and healthy when they are in school.

Yours sincerely

Mrs Chaillan Mui Tuan
Principal

Haze Management Measures

Index Category	Management Measures
101-200 (Unhealthy)	<ul style="list-style-type: none">• Schools will minimise outdoor activities.• Students with pre-existing lung or heart conditions or are unwell will be exempted from all physical exercise.
201-300 (Very Unhealthy)	<ul style="list-style-type: none">• There will be no indoor or outdoor physical exercises.• Classroom lessons will continue, but lessons may be modified as appropriate.• Students with pre-existing lung or heart conditions will be moved to enclosed indoor spaces.
>300 (Hazardous)	<ul style="list-style-type: none">• If the forecast for the next day is 'Hazardous', school closure will be considered.• If PSI reaches 'Hazardous' level <u>during school hours</u> :<ul style="list-style-type: none">○ Schools will scale down lessons.○ All students, including those with pre-existing lung or heart conditions, will be in enclosed indoor spaces, including classrooms with doors and windows fully closed. Schools will spread out students across the enclosed indoor spaces, such as the library, to allow for better thermal comfort and ventilation.○ Students and staff who are unwell will be temporarily accommodated in an air-conditioned room with an air purifier, before taken to seek medical attention. Parents of these students will also be notified.
