Dear Parents/Guardians

Haze Management

We welcome our boys back to school today. As the well-being of our students is our priority, we wish to assure parents that we will be taking the appropriate haze management measures according to the Ministry of Health's advisory (www.moh.gov.sg/haze). All classrooms have been equipped with air purifiers. Teachers will also be on the lookout for students who are unwell or have pre-existing lung or heart conditions. **As children respond differently to haze, parents should ensure their children have their medication, such as inhalers for asthma, with them.** You may refer to <https://www.moe.gov.sg/haze-management-measures> for more information on schools' haze management plans.

With reference to MOE's press release yesterday, schools will only be closed when the air quality forecast for the next day is 'Hazardous' (24-hour PSI>300). In making any decision to close schools, MOE is mindful of the disruptions to families' care arrangements for their child, and will take into consideration all available information, health advisories and forecasts from the relevant authorities regarding the next day's haze situation. Should school closures coincide with national examinations such as the PSLE, the affected examination papers will be rescheduled and the examination period extended.

Thank you and we wish you a fruitful Term 4.

Yours sincerely

Mrs Chaillan Mui Tuan
Principal
